

Smile

Year Book

2019

Dear Friends

A warm welcome to the world of bewitching smiles!

A powerful smile can say a thousand words and naturally make someone's day. Gone are the days when you had to be a metal mouth for one or two years to get your dream smile. Technology advancements in the field of medicine and dentistry have made smiles a lot easier and convenient than it used to be earlier.

We at 32 watts are dedicated to providing the best in class quality and an unparalleled service in delivering the aligner treatments to your patients. A lot more adults are now opting for clear aligners because of the convenience and comfort that they provide. As you grow your practice and technologically advance yourself, we would like to be a part of your journey and be honoured to serve you.

We build relationships for life and proudly cherish them. Our relationship with you goes a long way in helping you build your relationship with your patient in turn.

We strive to excel in our product and services to provide you with a seamless integration between your patient services and product acquisition from us. We are here to take care of your concerns and do whatever it takes to deliver an unmemorable experience.

We can very proudly vouch for our product quality and efficacy as is evident from the third edition of our smile journey.

Best Wishes Always,
Dr Nidhi Singh
Director - Medical
32 Watts Clear Aligners

AFTER

Case Status: Complete space closure achieved in both upper and lower arch. Finishing and detailing is in progress.

Reclaim your Smile

Here's to the self-conscious.
To those who cover their toothy grin
In the curves of their palms.
Who have perfected the very angle
For every photo they are in.
The hours spent before the mirror
In response to 'Say Cheese'.
The nightmare of a lunch meeting
And the occasions they missed.
Not any more.
We believe people should Smile.
More often, more openly.
In moments of truth, conversation or spontaneity.
Smile. At mirrors, strangers or cameras.
Because precious moments should become memories.
We believe confidence is your natural charm.
So express yourself. Truly. Fully.

We take your smile seriously.

The people at 32 watts work to bring together the latest in technology and the best in dental healthcare, so you can have a perfect smile.
